

Shanghai Disney

Brief overview of Shanghai Disney construction and nursery.

Shanghai Disney construction to meet a 2015 date opening.

Shanghai Disney hotel under construction construction.

Shanghai Disney ride under construction.

The nursery was all about large tree production for instant effect.

Ginkgo biloba

Air pots and soft poly wraps were used because they can be formed into large container volumes.

Substrate is placed on the plastic and the pots are built around the trees.

Magnolia grandiflora being potted.

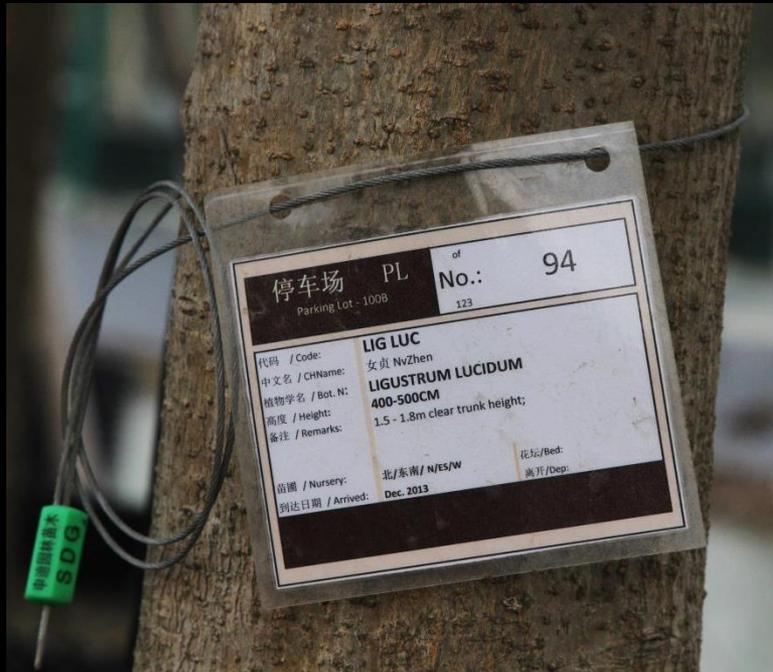

Magnolia grandiflora

Distylum racemosa

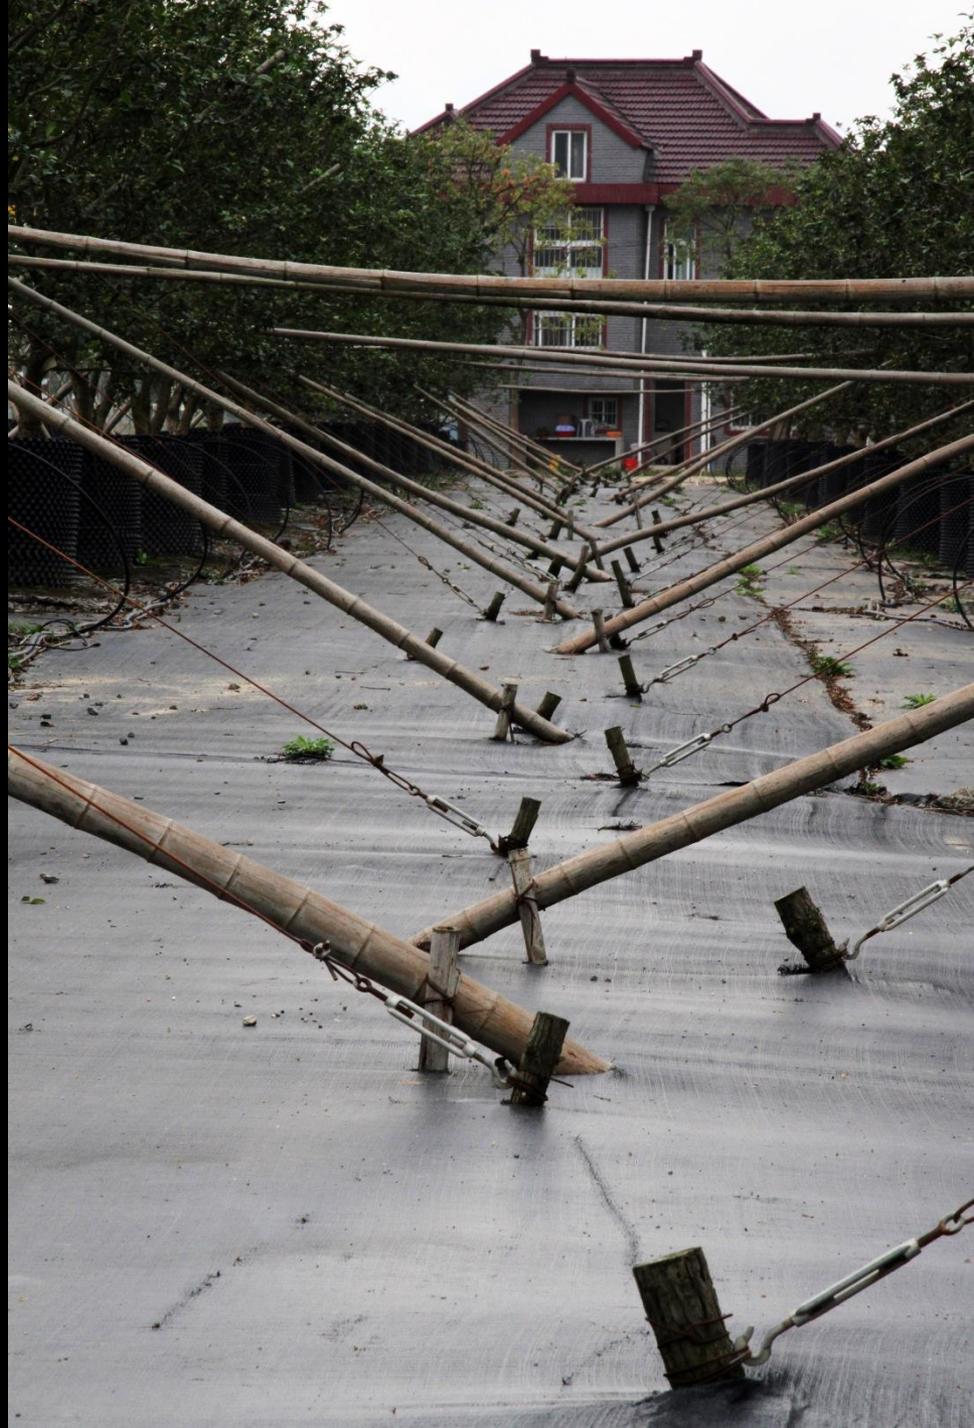

Cryptomeria japonica

Large *Ligustrum lucidum*
supported with bamboo
stakes.

Loquat
Eriobotrya japonica

Cord twine is used as a tree wrap especially during transport.

Michelia

Shrubs were also being produced in smaller containers.

Bernard

Fertilizing container plants.

The fertilizer was an organic compost.
